

Black Hills Health Care System

Department of Veterans Affairs

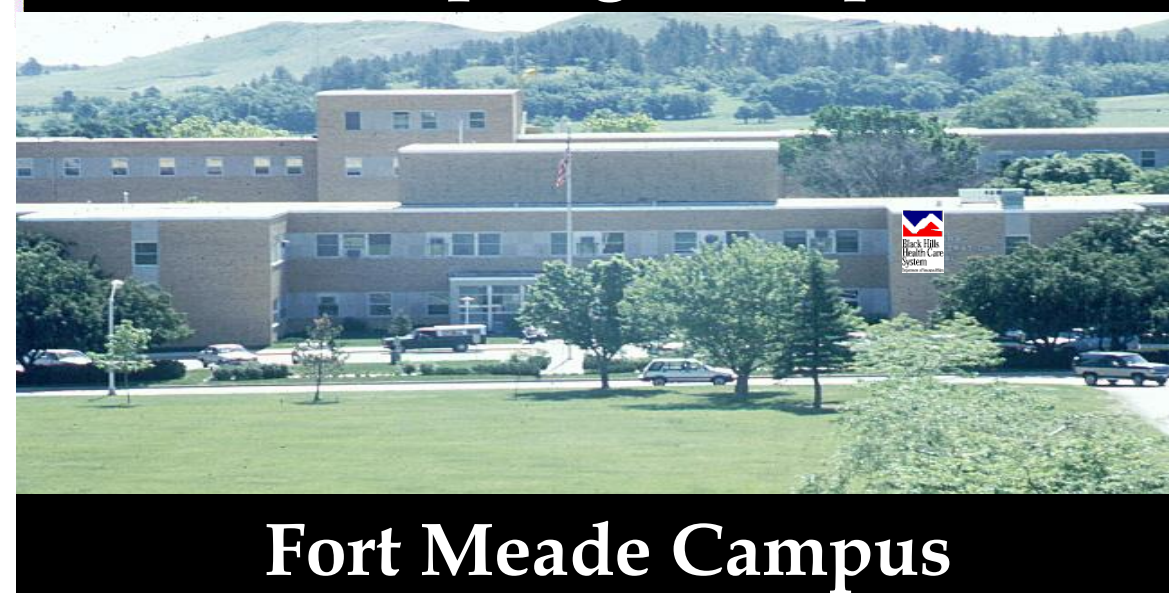

PGY1 Residency

PGY2 Ambulatory Care Residency

The VA Black Hills PGY1 Pharmacy Residency will train pharmacists in the setting of a large, rural VA health care system. While both inpatient and outpatient learning experiences are required during this program, pharmacist involvement in ambulatory care is broad. An elective teaching certificate program is available which equips residents to pursue a position in an academic setting. Feedback from both residents and preceptors is valued and used to proactively customize each resident's experience.

Hot Springs Campus

Fort Meade Campus

The VA BHHCS Ambulatory Care PGY2 Residency will further develop the resident's skills in direct patient care, leadership, and education through a variety of experiences tailored to the individual's needs and goals. Upon successful completion of the program, graduates will be equipped to obtain an ambulatory care certification and serve as an ambulatory care clinical pharmacist in either the clinic setting or academic setting.
